 4WD in arroyo due to sand  
**Elevation (min)** 4605 ft.  
**Elevation (max)** 5010ft.  
**Elevation change:** 405 ft.

Accessible from the Quebradas road, Ojo de Amado is an interesting desert spring with a pond nestled in a rocky canyon worth the visit. Return by Quebradas road or via Los Pinos arroyo. The arroyo passes through a canyon with cliff walls, then a steady slope down to the Rio Grande. Like all arroyos, avoid during local rains due to flash flooding & mud.
