President's Corner

Jim Sorenson

We accomplished all of the stream improvements at the Lease that we set out to do during last Saturday's work-day! With Jim Ellett's pneumatic fence post pounder, and

his son, Andy, as the operator, we placed 108 six-inch posts extending from the bank into the stream bed below the lower bridge. Over time, the posts will capture silt and debris which will build up the bank and narrow and deepen the channel. By narrowing and deepening the channel, we will speed up the flow, increase the oxygen content and cool the water and, hopefully, decrease the amount of algae growth in late spring and summer in this part of the stream. We owe a special thanks to Bob Silver for engineering and spearheading this project.

As we had machines to do the heavy work, a crew took the opportunity to clear as much of the vegetation overhanging the stream as could be reached from the lower bridge to the irrigation takeout and from the upper waterfall to the upper end of the Lease. There are a number of deep holes in these areas which will now be more accessible than they have been.

Thanks to the following Club members who helped with the stream improvement project—David Carmichael, Ted Hopkins, George Kasper, Ron Bellerose, Dennis Lanpher, John Downey, Stan Wright, Jim Sorenson, Bob Silver and Tom Wobbe and also to the NMSU students—Will Libenau, Dominic Lujan, Dillon Martinez, Tyler Carter, Haley Smith and Sarah Grubel.

A quick reminder of some upcoming events: David Carmichael is our speaker at the October meeting and Tom Lightfoot will make a presentation regarding the

Club trip to Kodiak at the November meeting. Project Healing Waters will be hosting approximately 24 soldiers from Ft. Bliss for fly tying and casting on October 28th and for a trip to the Lease on November 4th. We can use as many volunteers as we can get for both of these events. The Club trip to the San Juan is set for November 11th. We have about 12 members who have signed up and room for plenty more. If you are interested, contact Chuck Mueller. The signup deadline is October 13th.

On Sunday, December 13th, the Club will sponsor a fly casting clinic with Bob and Leigh Widgren at Alumni Pond on the NMSU campus. We are still in the planning stage, but we anticipate there will be a beginning session and an advanced session. The clinic will be free to all Club members, so take advantage of this opportunity to improve your casting skills. We will provide more information at upcoming meetings, in the newsletter and by email.

Finally, the Board has set February 6, 2016 as the date for our annual Club banquet. Our guest speaker will be Tim Cammisa. Tim is the host of TroutandFeather.com and a large number of fly tying and fly fishing videos on YouTube. He is a frequent and dynamic speaker on all aspects of fly fishing. So save the date, as it should be another entertaining and informative event.

Tight Lines,

Jim

PHW Coordinator

Project Healing Waters is going strong. Third quarter summary shows that even with the heat of the summer we did quite a bit. The volunteers spent a total of 424 hours at different events during the 3rd quarter. We had 16 new Vets join the program, 6 fly tying classes, 5 rod building classes, 2 casting events and 5 fishing events. Thanks to all our MVFF volunteers.

Upcoming events include casting at the University pond on October 3rd, rod building on October 5th, fly

tying at Ft Bliss on October 23rd, fishing at the lease on October 24th, fly tying on October 27th at the Las Cruces VA Clinic, fly tying at NMG&F on October 28th with casting in the afternoon. We will have the fishing on the lease November 4th. October 28th and November 4th will be with our large group of soldiers from Ft Bliss. We need all the volunteers that we can get for these events.

Lady Anglers Conquer Conejos

Helen Zagona

Veni, Vidi, Vici. Seven MVFF Lady Anglers and one new recruit traveled to the Conejos River earlier this week. It was a success all 'round. Each angler spent one full day on private waters at "Rainbow Trout Ranch." All anglers pulled colorful 18" to 22" rainbows and browns from waters of that ranch. These fish had hardly seen a fly all year and willingly grabbed assorted nymphs and a few dries artfully cast to them. The dries included one "Stimmie" (tied by our own Uncle Al) which caught fish by two different people. Browns had

spawning colors and were wearing their "clown suits" as described by Scott our guide. Our MVFF First Lady (President's wife) seemed to catch the fattest and biggest with her newly acquired expert "czech nymphing" skill. (We see a new Echo Shadow II czech

nymph rod in her future.) She perfected this high sticking method, pulling so many huge fish out of pools that she shamed her fishing partner using standard casting technique!

Three of the anglers also took the drive and long hike down into the canyon to the Los Pinos River near the Osier Station. This beautiful stretch of river is wild

and challenging with the narrow gage railroad train thundering past on the tracks hundreds of feet above. Fishing there was difficult but a couple of fish were caught on dries, including one 17" brown (in clown suit) on a PMD variant. That made the long hard climb out a bit easier. On another day, four of the women anglers were taken by guides on the endless bone-jarring, teeth rattling drive (don't try this in your own vehicle!) to La Jara Creek. Three hours of driving only yielded mixed results with each woman

only landing a few smallish fish. It was a character-building experience.

The Conejos valley was in full fall color with aspens and narrow-leaf cottonwoods all yellow and orange. A scene of heart-stopping beauty with the river below. As always, Lady Anglers enjoyed good food, very good beverages and comfortable accommodations and (best of all) close friendships on their annual fall trip. The only question left open: where next year??
